Appraisal of Manufactured Homes Featuring Next-Generation Manufactured Homes 7.5 CE hrs (no exam offered)

Friday, February 26, 2021

Check in begins at 8:15am; class starts at 8:30am

Instructor: Edward Molinari, SRA, AI-RRS

This new 7.5-hour course, developed in collaboration with Freddie Mac, provides an in-depth look into preparing appraisals for traditional manufactured homes plus insight into CHOICEHomeSM—the new type of high-quality manufactured homes that are built to HUD code but developed with site-built features. You'll learn how to meet the specific requirements of Freddie Mac, the Federal Housing Authority (FHA), Veteran's Administration (VA), United States Department of Agriculture (USDA), and Fannie Mae using a new, ground-breaking tool—the Manufactured Home Quality Rating Worksheet, which is consistent with the Marshall & Swift®—CoreLogic Residential Cost Handbook and the Uniform Appraisal Dataset (UAD). The course begins with a thorough review of existing manufactured housing products then delves into CHOICEHomeSM, a new accessible, affordable addition to America's housing stock. To apply elementary and complex techniques used in the cost and the sales comparison approaches, you'll work through a case study of these homes to develop a credible appraisal report. Objectives:

- Identify the multiple types of factory-built housing including manufactured home, Next Generation manufactured home, modular home, and panelized home.
- Recognize the distinctive construction qualities of manufactured homes and how they differ from site-built homes.
- Understand the specific secondary market appraisal requirements of Freddie Mac, FHA, USDA, VA, and Fannie Mae.
- Understand proper data collection techniques for manufactured housing.
- Develop an overall quality rating for manufactured homes using the Manufactured Home Quality Rating Worksheet.
- Report accurate results of a manufactured housing appraisal on a Freddie Mac Form 70B (FNMA form 1004C).
- Develop the cost approach for both a manufactured home and a Next Generation manufactured home using the Marshall & Swift®—CoreLogic Residential Cost Handbook.
- Use the sales comparison approach for a manufactured home appraisal and apply new techniques when appraising a Next Generation manufactured home.

New Jersey Appraiser Law & Regulations 2 CE hrs

Friday, March 5, 2021

Check in begins at 8:15am; class starts at 8:30am

Instructor: Mary Fox, MAI

MANDATORY CLASS FOR NJ APPRAISERS ONCE A RENEWAL CYCLE

NJ Appraiser Law, Regulations N.J.S.A. 45:14F-1, et seq. Real Estate Appraisers Act

Purpose: This course is required by NJ regulations every two years. Students will learn about the law itself, the regulations that pertain to the law including specific areas noted in the regulation.

13:40A-5.4 (b): All licensed and certified real estate appraisers shall be required to complete a two hour course on New Jersey law and rules governing the practice of real estate appraising.

Business Practices & Ethics

6 CE hrs

Friday, March 12, 2021

Check in begins at 8:15am; class starts at 8:30am

Instructor: Mary Fox, MAI

Business Practices and Ethics is an important course that provides information about standards and ethics requirements for valuers in general and, more specifically, for valuers who belong to the Appraisal Institute. Through discussion questions and examples, the class compares behavior and actions that illustrate violations of the Code of Professional Ethics, and participants learn how referrals can be made. Participants are also introduced to the Appraisal Institute Guide Notes to the Standards of Professional Practice and use these Guide Notes to resolve everyday appraisal practice problems. At the end of the course, they learn about common errors in appraisal reports and review reports, and they respond to questions about challenges that arise in appraisal practice such as requests for updates and requests to change or add intended users. These are common business practice issues that appraisers encounter in various assignments, including mortgage lending, litigation, and property tax appeal. Other real-life scenarios in the course illustrate less common business practice issues such as an appraiser's obligation when illegal or criminal behavior is observed.
